

Pharma & Nutraceuticals Processing

Used by many of the world's leading pharmaceutical companies, our pharmaceutical and nutraceutical equipment is designed to meet the rigid sanitary standards in the pharmaceutical industry. From mixing micro or active ingredients to mechanically conveying finished product, all pharmaceutical equipment is designed and built with the highest quality standards. Pharmaceutical companies benefit from S. Howes' customer-centric approach to providing custom solutions that deliver quality pharmaceuticals and nutraceuticals.

Industrial Process Equipment

- Mixers
- Screw Conveyors
- Separators & Screeners
- Size Reduction

Mixing

Sanitary and compliant constructed designs, available in batch, continuous, ribbon, paddle and custom agitator mixing all available, to accomplish your most accurate pharmaceutical processing needs.

Pharm Blender

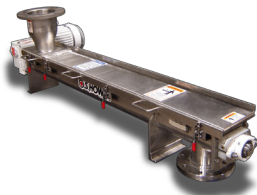

Sanimix

Lab Mixer

Screw Conveying

Energy-efficient conveyors built specific to move your pharmaceutical and nutraceutical processing line to the next phase. Options include heating and cooling, feeding, and u-trough, split-tube, or tubular.

U-Trough

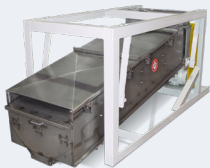

Custom Conveyor

Split Tube

Separating & Screening

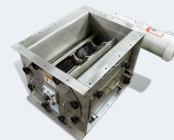

Remove lumps and oversized particles with custom screening, sifting and separating systems. Applications include scalping or separations up to three decks.

Snappy Shaker

Centrifugal Sifter

Power Grater

Lump Breaker

Size Reduction

Accurately reduce the size of particles for downstream processing with our sanitary and reliable equipment.
